5 **Replacement Paragraph 37 C.F.R. 1.121(b)(1)(iii) - Page 5 of the Specification**
as marked:

Figure 4 is a detailed perspective view of the upper end of the [cone] marker
showing the lower end of a flag and flares;

10

Replacement Paragraph 37 C.F.R. 1.121(b)(1)(iii) - Pages 6 and 7 of the
Specification as marked:

A plurality of receptacles 30, 32 and 34 are provided in the upper surface 24.

15 Receptacle [30] 34 is shown as having a generally arcuate shape. Similarly, depending
receptacle 32 is [a] generally circular. Receptacle [34] 30 is shown as an elongate,
rectangular opening. As will be explained, the receptacles are intended to temporarily
secure or mount warning devices such as flare or flags and may be various shapes in
accordance with the shape of the base or stem of the device to be attached. The

20 receptacles 30, 32 and 34 each have a downwardly depending wall 35 which extends into
the hollow interior 36 of the base to provide support for the article.
